

IMPORTANT INFORMATION REGARDING RESTRICTED ITEMS.

Because our cabins and all of our buildings are wood-frame structures, and since our camp is situated in a heavily treed area, we are extremely concerned about the use of electrical items in cabins. Fire is a constant concern!

As in past years, we are adopting a very strict policy with both our campers' and our staff's safety in mind.

1. Only battery-operated appliances (radios, alarm-clocks, fans, etc.) will be allowed in cabin.
2. Each cabin may have one electrically-operated sound system which will be provided by one of the cabin's counselors.
 - iPods are strongly discouraged and camp will not assume any responsibility should these be lost or damaged. If however, you still plan on bringing an iPod to camp, it CANNOT be a Touch Screen Device. Removing the SIM card or deleting games and movies will still result in confiscation.
 - Non Touch Screen iPods will be restricted for listening to music in the cabins only. They are not to be carried out and around the camp grounds.

3. It is our belief that the following items have no place at summer camp.
If brought to camp, they will be confiscated and not returned.

Hair Straighteners	Curling Irons	Lighters	Candles
Cell Phones	Laptops	Hot Pots	Fridges
PSP's and Electronic Games	TVs	Knives	iPads / Tablets
Heating Pads	Heaters	Folding Chairs	DVD Players
Touch Screen Devices	Walkie Talkies	Electric Fans	
Power Bars/Extension Cords			

4. Due to lack of space, cardboard or plastic shelving cannot be put on buses or baggage trucks.
5. Hair Blowers are perhaps the single most hazardous electrical item of all. While we would prefer that no hair-blowers were brought to camp, we will strictly limit their use.
6. Lockboxes and Toolboxes will be permitted only **without** locks. Since we have a safe to house valuables and money, there is no need to lock anything up in the cabin.

Please remember that Winnebago is, after all, a summer camp and not a resort. We ask that for a very few weeks, your child abandons some of the luxuries of home in favour of a more simple lifestyle, one in keeping with our natural environment, where safety is our prime concern.

Your co-operation in this very crucial matter is particularly appreciated.

The Lustigs
